Duncan Enright

Only Labour can beat the Tories in Witney East

I love Witney and have lived here for nearly 30 years. Through your support, I have been your local Labour councillor for over 13 years.

You asked me to sort out traffic, and I have been working on it. I led the campaign for a new A40 junction at Shores Green to free up the town centre — diggers start this year.

New buses, like the Tube to London in our district, mean fewer queues on the A40. Footpaths across town are being improved, thanks to Labour. Our markets are set to grow, with vibrant events like the Christmas Market — takings up 60% on 2022.

I led the council to get Marriotts buzzing again, and I want to fill all the shops. Labour supports free parking because we know it boosts business.

My wife teaches at Wood Green. Our three children went to school there. I want more for our young people, and support the work of the Labour Town and District councils building new sports facilities, the skate park, funding clubs and Home Start.

I will always listen to you and be around to help. On Thursday 2nd May, vote Labour to re-elect me.

I have a track record of making a real difference for our area

Better buses for Witney including Tube to London and service to Swindon.

Support for our town including reviving Marriotts and the Christmas Market.

£5 million more on road maintenance, plus funds for footpath to Madley.

But there's still more work to do, my priorities moving forward:

Reviving markets, keeping free parking and more events to support our shops.

Oppose North Witney development, and support homes in the right places.

Deliver Shores Green A40 junction with start in 2024 to complete 2025.
